

Sales Performance Dashboard (Excel)

Problem Statement

Analyze sales data to identify key revenue drivers, regional performance, and trends to support business decision-making.

Tools Used

Excel, Pivot Tables, Charts, Slicers

Key Insights

- Laptop is the top-performing product (23% contribution)
- Accessories category generates highest revenue
- North region leads in sales
- January 2023 had highest revenue
- Recent months show decline

Recommendations

- Maintain stock for high-performing products
- Focus on top regions (North, West)
- Introduce offers in low-performing months
- Run promotional campaigns

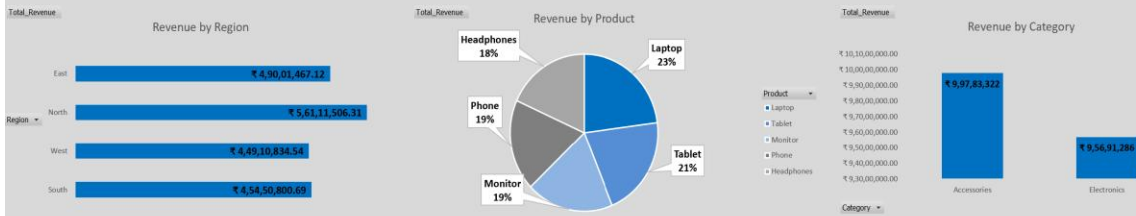

Outcome

Built an interactive dashboard that helps analyze sales performance and supports business decisions.

Sales Performance Dashboard

Total Revenue	Total Orders	Avg Order Value	Product	Category	PaymentMode	Region
₹ 19,54,74,608.66	1632	₹ 1,19,776.11	Headphones Laptop	Accessories Electronics	Card Cash	South West
